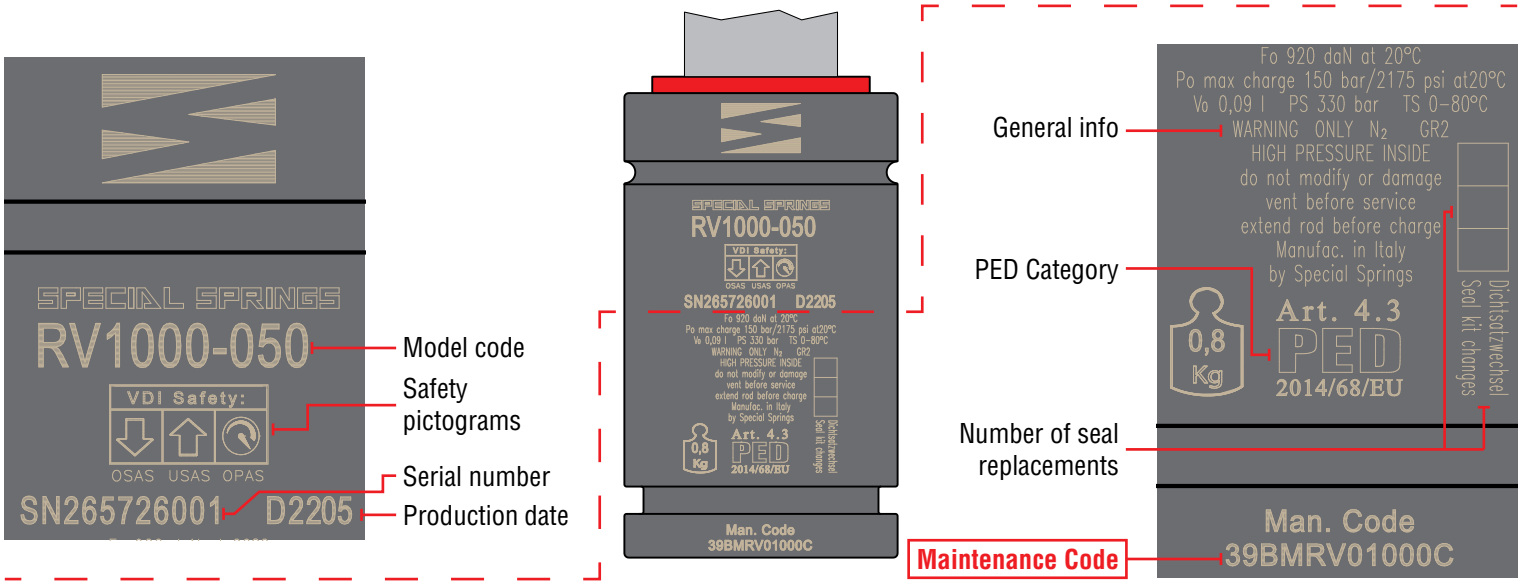
How to order Maintenance Kit

All Special Springs nitrogen cylinders are permanently laser marked for easy and long lasting identification and traceability.



To order a maintenance kit, you are requested to communicate the **Man. Code**, generally marked on the bottom of the body, to your Special Springs supplier.

HOW TO ORDER

example: 39BMRV01000C

If the **Man. Code** is deteriored or is not redable, you are requested to communicate the **Serial Number** (it may start with **SN**.... or **bn**....) to your Special Springs supplier.
